

As we go to press, the terrible news comes to us of the wreck of the Ocean Steamer Cambria, which had on board at the time 127 passengers, all of whom perished, together with the crew. Vessels that have arrived at New Orleans, report that fifty miles of the Florida coast is strewn with the debris of the wreck. In our next we will give the full particulars.

The cable dispatches inform us that Bazaine has capitulated, and that he will march on Paris with his army that has been holding out so long and heroically at Metz, and with the prisoners made at Sedan, enforce terms of peace. His object is to place Napoleon's son, the Prince Imperial, on the throne of France—Bazaine to be nominated as Regent.

To Our Readers.

It, no doubt, will be surprising to a majority of our readers, to know that with this issue, our connection with the REPUBLICAN ceases. For the seven months that we have had charge of this paper, we have labored hard to build it up, and make it the exponent of the Republican party of this county, and a representative of the local interests of this community. How we have succeeded, we leave to our readers to judge. Of one thing we are satisfied, and that is the subscription has increased almost one-third since we took charge, and is daily on the increase. In severing our connection with this paper, we cannot refrain from returning our thanks to our many friends in this place and throughout the county, for the kindness shown us during our stay among them, and we shall ever remember the many pleasant and happy days spent in their midst. May they continue to prosper and be supremely happy.

Our object in severing our connection with this paper, is best known to ourselves, and it might not be proper to here give our reasons, but may at a future time if it is deemed necessary. We have on all occasions endeavored to work in such a manner as would be conducive to the best interests of the county and the party—not for any particular clique or set of men, but for the whole party.

Our successor, Mr. Dunn, is a man known to the most of the citizens of this place, and of whom all speak in the highest praise. He at one time was the editor of this paper, and his departure was regretted by many.

It is not our intention to leave Tionesta, but shall remain. We know and feel that we have the good will and sympathy of the citizens. We feel that we have done our duty to the best of our ability, and if others fail to do their's, on their heads rest the blame.

R. J. McQUILLEN.

Election Returns.

It will be seen by reference to the official vote published elsewhere, of Forest county, that the Republican majority in the county, is ninety, a gain of twenty over Governor Geary's vote in 1868. When we take into consideration the fact that but little interest was manifested by Republicans in certain portions of the county, we think, and feel proud in saying, that the result is glorious. The Democracy felt confident in their ability to carry this county—and left not a stone unturned to accomplish it—but Forest county is not only growing in population rapidly, but in intelligence—which accounts for this Republican gain. If the Republican voters of this county (and all over the State) would manifest the same degree of enthusiasm in our local elections that the Democrats do, our majority would have been much larger; but we can't complain, for this result gives us the assurance that our party still grows, and we congratulate the voters of the county on achieving this crowning victory. Your work was done nobly, and now we have the satisfaction of knowing that we stand to-day hand-in-hand with our sister Republican counties, who have so long stood the test and successfully held at bay the party that would, had they the power, overthrow the very institutions for which so many gave up their lives. Forest county, contributed largely of her stalwart sons for the maintenance of these same principles for which they voted, and they are not now, as is shown by their recent vote, willing that these principles shall be sought for in vain.

The whole Republican ticket is elected—with one exception (District Attorney) and this was the work of the Republican voters. Mr. Mason, the present incumbent, has filled the position with honor and ability, and his many friends in the Republican party in this section, supported him to a man. Of course we would have preferred seeing a Republican fill the position, but it would have been impossible to have found one that is more fitting for the discharge of the duties of the office. It might not be out of place here, to give a brief review of the whole Republican ticket elected, but we gave this before the election, and therefore, deem it unnecessary. Suffice to say, that the ticket was one of the best that could have been selected, and will discharge the functions of the various offices to which they have been called to fill, in such a manner that will redound credit to those who placed them in office. All honor to Forest County!

Loss and Gain.

As the fact becomes apparent that whatever losses the Republican party may have sustained in the late election it will still hold the power within its hands, and keep the State from Democratic misrule, we turn with some interest to an investigation of those losses, and the consequences that may ensue therefrom.

The truth is, we think, a Democratic loss is a permanent matter with that party. That Democratic disaffection means antagonism to Democratic principles. That nothing has kept that party together, but discipline of the most severe and vigorous nature, and when that force once becomes expended, it has no patriotic principle around which it may rally its members. When we reflect, leaving our own State out of the question and turning to Ohio, that Hamilton county in the year 1868 polled a Democratic vote for Secretary of State of twenty-one thousand and eighteen votes, we cannot understand how the Democratic party only polled a vote of fourteen thousand four hundred and eighty-seven for Secretary of State in the year 1870. Here is a loss of nearly seven thousand Democratic votes. The Republican party cast but seventeen thousand votes in 1870, and had the Democratic party done as well as they did in 1868, they would have had a majority in round numbers of four thousand votes, while the truth is, the Republican candidate is elected by over two thousand.

We mention this fact for a single purpose. Here, in our own State, just as little reason can be assigned for the loss to the Democratic Party in the 12th District with its Democratic majority of 1,719, as may be added for this decrease of their vote in Hamilton county, Ohio. In such instance we hold it is a permanent loss. "Only think of it," says the Cincinnati Daily Enquirer, "without counting the natural Democratic increase, 7,000 Democrats who voted two years ago did not put in their appearance at this election."

Turning to our own election we find that Stewart, Gillfillan and Donley have been defeated. With regard to Stewart there was at best but a very meagre majority to overcome, and Mr. Covode has only succeeded in doing so, by proving that base frauds had been perpetrated against himself. With Donley and Gillfillan it was different. Each of them had over one thousand votes to back them, and their defeat is a positive Democratic victory. But it did not arise from any adoption of Democratic principles, or acceptance of Democratic principles. It arises as in Hamilton county, Ohio, through the fact, that voters staid at home and did not vote.

But there is this difference between them. While we believe a Democratic apathy is a permanent Democratic disaffection, it is not so with the Republican party. Standing upon principles that have made it the glory and wonder of the world, it has at all times and under all circumstances a rallying cry. Here and there some private personal irritation may create a local contest, but it is as but the surface of its waters that becomes troubled. Far down in its depths, its great heart rests, quietly throbbing, and undisturbed by the surface ripple above.

In the defeat of Donley and Gillfillan, we see nothing more than a stimulus to future Republican triumphs. We do not as yet regard Morrell defeated. We believe he will be able to show what it is asserted he can, friends in Blair county alone, sufficient to set aside this meagre Democratic majority of eleven. But with regard to the other there is no doubt they should not have been defeated. Nor do we believe they would have been, had not our sound and ill advised assertions been circulated through their counties, that while it had but little actual

strength within itself, could confirm the indifference of a handful of men. And that was all that was needed.

But, taken into connection with this is the indisputed fact, that a general apathy seems to have pervaded the people. In those districts where Republicans were aroused to their duty, the result shows we have lost nothing. Allegheny and Philadelphia counties seem, however, unfortunately to have been the only counties that fully appreciated the political situation, and even in these two counties thirty thousand Republicans staid at home. The vote in seven of the interior counties compared with 1868, shows a decrease of nearly 18,000 votes.

The lesson of 1870 will long be remembered by the Republican party. Had Swearingin been elected the State Senate would have been Democratic. Standing as it does to-day 17 Republicans to 16 Democrats, having lost one from the middle district, it needed but the election of Swearingin in Allegheny county to have given the Democrats the majority. Our Legislature will stand 56 Republicans to 44 Democrats, we having lost one member from Delaware, one from Lycoming, one from Indiana, one from Armstrong, and one from Crawford, with a gain of one in Berks.—[Pitts. A CORRESPONDENT writing from Cardington puts on record a curious freak of nature, as follows: "We have a monstrosity a short distance from here, that will beat the world. Last Tuesday morning a lady gave birth to a double child. It is of the natural length of a child with perfect head on each end. On one side there are two perfect legs with feet; this side, only, is the gender apparent—that of a female. On the other side there is one leg, which is as large as both the others, and appears to be double; the foot displays eight toes. The creature is healthy. It takes its food well in both mouths, and digests well. There is but one set of bowels.

THE New York Nation is merciless on the Democracy when it says that according to its platform the Democrats desire the establishment of a republic for Ireland on the model of that of New York city, which is the first Irish Republic ever established, and possesses many novel governmental contrivances.

It is an Unfailing Remedy in all cases of Neuralgia Facialis, often effecting a perfect cure in less than 24 hours, from the use of no more than Two or Three Pills.

No other form of Neuralgia. Nervous Diseases has failed to yield to this Wonderful Remedy Agent.

Even in the advanced cases of Chronic Neuralgia and general nervous derangements, if many years standing, attending the entire system, its use for a few days, or a few weeks at the utmost, always affords the most astonishing relief, and very rarely fails to produce a complete and permanent cure.

It contains no drugs or other materials in the slightest degree injurious, even to the most delicate system, and can always be used with perfect safety.

It has long been in constant use by many of our most eminent physicians, who give it their unqualified and unqualified approval. The following, among many of our best citizens testify to its Wonderful Efficacy:

"Having used Dr. Turner's 'The Double-oreux or Universal Neuralgia Pill' for 20 years, I have sold it and used it personally, and I have never known of a case where it did not give relief. Customers have told me they would not be without it if each pill cost ten dollars. I think it the most reliable and valuable remedy for neuralgia and nervous diseases in the world."

Roback's Stomach Bitters, while all other Bitters in the market, possess intrinsic merit. Most Bitters, so-called, are merely violently stuff, sold as a beverage. Dr. Roback's Bitters are not a beverage in any sense of the word, but contain the most expensive drugs known to science for the radical cure of Indigestion and Dyspepsia, and for all cases where a tonic and stimulant are required. They restore the vital forces in a remarkable degree, and give tone to the system.

STOMACH

BITTERS

It is now eleven years since Dr. Roback, the celebrated Swedish physician, from Stockholm, Sweden, came to this country and introduced the Scandinavian Blood Purifier, since which time thousands have been cured, by its use, of Scrofula and other blood diseases. It contains, besides the Iodide of Potassium and Syrup of Sillingia, drugs imported from Sweden for its express manufacture, unknown and not kept by apothecaries in this country. A gle trial will convince the most skeptical of its wonderful value.

BLOOD

PURIFIER

Dr. Roback's Blood Pills are unsurpassed by any Pill manufactured for a similar purpose. One trial invariably establishes them as favorites with all who use them.

The reason why Dr. Roback's Blood Pills should be kept in every family are: Because they can be employed in all cases where a "family physic" is required, and are perfectly safe in their administration at all times; Because they are made both with and without sugar-coating, thus adapting them to the use of every body; Because

they can be purchased at any drug store at the extremely low price of twenty-five cents per box.
